

# Workshop Report Organization

## Timeline and Writing Assignments

Forrest M. Hoffman

# Workshop Report Writing Assignments

- All workshop participants will be acknowledged in the final report
- Breakout session co-leads are requested to produce final whitepapers with assistance from all participants and identify major contributors
- We request assistance from oral presenters in summarizing their recommendations regarding metrics, benchmarking, and data in whitepapers
- Whitepapers will become sections within chapters in the final report
- We will nominally continue to use Google Docs for production of whitepapers since we can continue our crowdsourcing approach
- We will have two open comment periods while writing to collect community input and feedback
- An aggressive timeline is required to meet the September 1 target for publication of the report

# Workshop Report Timeline

- June 15: All slides, posters, and notes collected and organized
- June 23: Draft breakout session whitepapers due for ILAMB community review
- June 30: Final breakout session whitepapers due (including figures and tables)
- July 6: Initial draft workshop report due for ILAMB community review
- July 13: Initial reviews back from ILAMB community
- July 20: Final draft workshop report due for ILAMB community review
- July 27: Final reviews back from ILAMB community (including figures and tables)
- August 1: Full draft workshop report due for DOE review
- August 15: DOE review responses due
- September 1: Final Workshop Report published
